**ALLERGEN GUIDE**

This guide contains allergen information regarding the 14 allergens as recognised by the Food Standards Agency to ensure you are choosing the correct food for you.

We take great pride in the production and execution of our products as our team are fully trained on food allergy and intolerances set by the Food Standards Agency. Therefore take great care and seriousness to make sure you feel safe consuming our products.

Please take into consideration that as a small company, we may use shared equipment when in production, meaning that although cross contamination is managed, it cannot be to a complete allergen-free level.
